FOR IMMEDIATE RELEASE

Aperture Presents Best Practices in Managing a World-Class Data Center at AFCOM's Spring 2006 Data Center World

Stamford, CT – March 20, 2006 – Aperture, the leading provider of enterprise software solutions that enable organizations worldwide to manage the physical infrastructure of their data centers, will showcase Aperture VISTA™ at this year's AFCOM Spring 2006 Data Center World being held in Atlanta this week.

In addition to showcasing Aperture VISTA at the Data Center World Exhibition, Aperture will begin their strong presence at the conference on Tuesday, March 21 with a Product Information Session presented by Aman Khan. Aman's Product Information Session entitled, "Best Practices in Managing a World-Class Data Center", will cover best practice scenarios implemented at some of Aperture's largest customers, how organizations can automate their processes within the data center and how to best manage infrastructure resources such as space, power, cooling, network and storage to meet the demands of the organization.

"We are excited to be returning to present and exhibit at this year's Data Center World Conference," said Steven Yellen, Vice President of Marketing at Aperture. "AFCOM's Data Center World is an outstanding forum for communicating best practices within the data center community. It is a great opportunity to interact with the professionals who use our leading solutions."

Aperture's flagship product, Aperture VISTA™, is an enterprise software solution which reduces operational risk and improves efficiency through the visual management of the data center. Aperture VISTA delivers the key processes that enable organizations to take control of an increasingly complex physical environment including equipment, space, power, cooling, network and storage. The world's largest companies use Aperture VISTA to achieve substantial improvements in the quality, reliability and cost effectiveness of their infrastructure planning, design, provisioning, troubleshooting and analysis

About Aperture

Aperture is the leading provider of enterprise software solutions that enable organizations worldwide to manage the physical infrastructure of their data centers. Aperture solutions automate and facilitate standardized best practice processes to manage the complexity and ever-changing conditions in today's enterprise data centers and to deliver world-class performance in IT operations. With Aperture, organizations worldwide have reduced operational risks, increased efficiency and generated actionable information to make better business decisions. Aperture is headquartered in Stamford, CT, with offices and partners located worldwide. For more information, please go to: <http://www.aperture.com>.

About AFCOM

AFCOM is the premier association representing the needs of enterprise and Internet data center executives and vendors around the globe. Established in 1981, AFCOM has become a forum for data center professionals, where they can share best practices and disseminate education on key management issues through the media, trade shows and conferences. The Data Center Institute - AFCOM's think-tank - provides the industry's most comprehensive insight and analysis on key issues affecting all data-intensive organizations. The association's members include data center managers, CIOs and other IS professionals from Fortune 1000 companies. AFCOM can be found on the web at <http://www.afcom.com>.
